REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

English Translation of a Report Originally Issued in Chinese

To ZENG HSING INDUSTRIAL CO., LTD.

Introduction

We have reviewed the accompanying consolidated balance sheets of Zeng Hsing Industrial Co., Ltd. (the “Company”) and its subsidiaries as of 30 September 2021 and 2020, the related consolidated statements of comprehensive income for the three-month and nine-month periods ended 30 September 2021 and 2020, and consolidated statements of changes in equity and cash flows for the nine-month periods ended 30 September 2021 and 2020, and notes to the consolidated financial statements, including the summary of significant accounting policies (together “the consolidated financial statements”). Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting” as endorsed and became effective by Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with Statement of Auditing Standards No. 65, “Review of Financial Information Performed by the Independent Auditor of the Entity” of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Note 4(3), the financial statements of certain insignificant subsidiaries were not reviewed by independent accountants. Those statements reflected total assets of NTD 493,635 thousand and NTD 487,999 thousand, constituting 6.34% and 6.28% of the consolidated total assets, and total liabilities of NTD 177,463 thousand and NTD 147,447 thousand, constituting 6.38% and 5.06% of the consolidated total liabilities as of 30 September 2021 and 2020, respectively; and total comprehensive income of NTD 4,036 thousand, NTD (2,541) thousand, NTD (42,623) thousand and NTD (6,287) thousand, which represented 12.56%, (0.85)%, (8.01)% and (1.11)% of the consolidated comprehensive income for the three-month and nine-month periods ended 30 September 2021 and 2020, respectively. The financial statements of certain associates and joint ventures accounted for under the equity method were not reviewed by independent accountants. Those associates' and joint ventures' investments under equity method amounted to NTD 55,807 thousand and NTD 57,109 thousand as of 30 September 2021 and 2020, respectively. The related shares of profits from the associates and joint ventures under the equity method amounted to NTD 288 thousand, NTD 1,341 thousand, NTD 2,755 thousand and NTD 2,964 thousand for the three-month and nine-month periods ended 30 September 2021 and 2020, respectively. The information related to the above subsidiaries, and associates and joint ventures accounted for under the equity method disclosed in Note 13 was also not reviewed by independent accountants.

Qualified Conclusion

Based on our reviews, except for the effect of such adjustments, if any, as might have been determined to be necessary had the financial statements of certain insignificant subsidiaries, associates and joint ventures accounted for using equity method been reviewed by independent accountants described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as at 30 September 2021 and 2020, and their consolidated financial performance for the three-month and nine-month periods ended 30 September 2021 and 2020, and cash flows for the nine-month periods ended 30 September 2021 and 2020, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" as endorsed and became effective by Financial Supervisory Commission of the Republic of China.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

For the Nine-month Periods Ended 30 September 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars Unless Otherwise Specified)

1. ORGANIZATION AND OPERATIONS

Zeng Hsing Industrial Co., Ltd. (the Company) was incorporated in 1968 to manufacture and market household sewing machines, vacuum cleaners, and the spare parts used on these products. The Company applied to be listed on the GreTai Securities Market on April 2004, and was authorized for trading over the counter on 28 December 2007. On 23 December 2014, the Company was authorized to be listed on Taiwan Stock Exchange.

Zhangjiagang Zenghsing Machinery & Electronics Co., Ltd. is controlled by the Company, which was incorporated in 1998 to manufacture household sewing machines in Jiangsu Province, China.

Zeng Hsing Industrial Co., Ltd. (VN) is controlled by the Company, which was incorporated in 2004 to manufacture household sewing machines in BinhDuong Province, Vietnam.

Shinco Technologies Limited (VN) is controlled by the Company, which was incorporated in 2007 to die-cast metal alloy of aluminum, zinc and magnesium in BinhDuong Province, Vietnam.

2. DATE AND PROCEDURES OF AUTHORIZATION OF FINANCIAL STATEMENTS FOR ISSUE

The consolidated financial statements of the Company and subsidiaries (hereinafter referred to as “the Group”) for the nine-month periods ended 30 September 2021 and 2020 were authorized for issue in accordance with the resolution of the board of directors’ meeting held on 5 November 2021.

3. NEWLY ISSUED OR REVISED STANDARDS AND INTERPRETATIONS

- (1) Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by the Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after 1 January 2021. The adoption of these new standards and amendments had no material impact on the Group.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (2) Standards or interpretations issued, revised or amended, by International Accounting Standards Board (“IASB”) which are endorsed by FSC, but not yet adopted by the Group as at the end of the reporting period are listed below.

Item	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements	1 January 2022

- (a) Narrow-scope amendments of IFRS, including Amendments to IFRS 3, Amendments to IAS 16, Amendments to IAS 37 and the Annual Improvements

A. Updating a Reference to the Conceptual Framework (Amendments to IFRS 3)

The amendments updated IFRS 3 by replacing a reference to an old version of the Conceptual Framework for Financial Reporting with a reference to the latest version, which was issued in March 2018. The amendments also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential “day 2” gains or losses arising for liabilities and contingent liabilities. Besides, the amendments clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Conceptual Framework.

B. Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)

The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

C. Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments clarify what costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous.

D. Annual Improvements to IFRS Standards 2018 - 2020

Amendment to IFRS 1

The amendment simplifies the application of IFRS 1 by a subsidiary that becomes a first-time adopter after its parent in relation to the measurement of cumulative translation differences.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Amendment to IFRS 9 Financial Instruments

The amendment clarifies the fees a company includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability.

Amendment to Illustrative Examples Accompanying IFRS 16 Leases

The amendment to Illustrative Example 13 accompanying IFRS 16 modifies the treatment of lease incentives relating to lessee's leasehold improvements.

Amendment to IAS 41

The amendment removes a requirement to exclude cash flows from taxation when measuring fair value thereby aligning the fair value measurement requirements in IAS 41 with those in other IFRS Standards.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after 1 January 2022, which have no material impact on the Group.

- (3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 "Insurance Contracts"	1 January 2023
c	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	1 January 2023
d	Disclosure Initiative - Accounting Policies – Amendments to IAS 1	1 January 2023
e	Definition of Accounting Estimates – Amendments to IAS 8	1 January 2023
f	Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	1 January 2023

- (a) IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" — Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in June 2020. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after 1 January 2023 (from the original effective date of 1 January 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after 1 January 2023.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(c) Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(d) Disclosure Initiative - Accounting Policies – Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

(e) Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and included other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

(f) Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group's financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the standards and interpretations, it is not practicable to estimate their impact on the Group at this point in time.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Statement of compliance

The consolidated financial statements of the Group for the nine-month periods ended 30 September 2021 and 2020 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and IAS 34 Interim Financial Reporting as endorsed and became effective by the FSC.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are expressed in thousands of New Taiwan Dollars (“NTD”) unless otherwise stated.

(3) Basis of consolidation

Preparation principle of consolidated financial statement

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- A. power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- B. exposure, or rights, to variable returns from its involvement with the investee, and
- C. the ability to use its power over the investee to affect its returns

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- A. the contractual arrangement with the other vote holders of the investee
- B. rights arising from other contractual arrangements
- C. the Group’s voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Group loses control of a subsidiary, it:

- A. derecognizes the assets (including goodwill) and liabilities of the subsidiary;
- B. derecognizes the carrying amount of any non-controlling interest;
- C. recognizes the fair value of the consideration received;
- D. recognizes the fair value of any investment retained;
- E. recognizes any surplus or deficit in profit or loss; and
- F. reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss.

The consolidated entities are as follows:

Investor	Subsidiary	Business nature	Percentage of ownership (%)		
			30 September 2021	31 December 2020	30 September 2020

The financial statements of some of the consolidated subsidiaries listed above have not been reviewed by independent accountants. As at 30 September 2021 and 30 September 2020, the related assets of the subsidiaries which were unreviewed by auditors amounted to \$493,635 and \$487,999, respectively; and the related liabilities amounted to \$177,463 and \$147,447, respectively. The comprehensive income of these subsidiaries amounted to \$4,036, \$(2,541), \$(42,623) and \$(6,287) for the three-month and nine-month periods ended 30 September 2021 and 2020, respectively.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in New Taiwan Dollars (NTD), which is also the parent company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency rates prevailing at the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as of the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A. Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B. Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.
- C. Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(5) Translation of foreign currency financial statements

The assets and liabilities of foreign operations are translated into NTD at the closing rate of exchange prevailing at the reporting date and their income and expenses are translated at an average exchange rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In the partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Any goodwill and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and expressed in its functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

- A. The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle
- B. The Group holds the asset primarily for the purpose of trading
- C. The Group expects to realize the asset within twelve months after the reporting period
- D. The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

All other assets are classified as non-current.

A liability is classified as a current when:

- A. The Group expects to settle the liability in normal operating cycle
- B. The Group holds the liability primarily for the purpose of trading
- C. The liability is due to be settled within twelve months after the reporting period
- D. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Term of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid time deposits (including ones that have maturity within three months) or investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(8) Financial Instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities within the scope of IFRS 9 *Financial Instruments* are recognized initially at fair value plus or minus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

A. Financial instruments: Recognition and Measurement

The Group accounts for regular way purchase or sales of financial assets on the trade date.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss considering both factors below:

- (A) the Group's business model for managing the financial assets
- (B) the contractual cash flow characteristics of the financial asset

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables, financial assets measured at amortized cost and other receivables etc., on balance sheet as of the reporting date:

- (A) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- (B) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognize the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- (A) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition
- (B) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (A) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- (B) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- (A) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- (B) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- (C) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
 - a. Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
 - b. Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

In addition, for certain equity investments within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable election to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income shall not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on the balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B. Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Group measures expected credit losses of a financial instrument in a way that reflects:

- (A) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes
- (B) the time value of money
- (C) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions

The loss allowance is measured as follows:

- (A) At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that the credit risk on a financial asset has increased significantly since initial recognition is no longer met.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (B) At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- (C) For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.
- (D) For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C. Derecognition of financial assets

A financial asset is derecognized when:

- (A) The rights to receive cash flows from the asset have expired
- (B) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- (C) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D. Financial liabilities and equity

Classification between liabilities or equity

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as of fair value through profit or loss. A financial liability is classified as held for trading if:

- (A) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- (B) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- (C) it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

- (A) it eliminates or significantly reduces a measurement or recognition inconsistency; or
- (B) a group of financial liabilities or financial assets and, financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

E. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(9) Derivative instruments

The Group uses derivative instruments to hedge its foreign currency risks and interest rate risks. A derivative is classified in the balance sheet as assets or liabilities at fair value through profit or loss except for derivatives that are designated effective hedging instruments which are classified as derivative financial assets or liabilities for hedging.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Derivative instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of hedges, which is recognized in either profit or loss or equity according to types of hedges used.

When the host contracts are either a non-financial assets or liabilities, derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not designated at fair value through profit or loss.

(10) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- A. In the principal market for the asset or liability, or
- B. In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(11) Inventories

Inventories are valued at lower of cost and net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows:

Materials	— Purchase cost under weighted average cost method.
Work in process and finished goods	— Cost of direct materials and labor and a proportion of manufacturing overheads based on normal operating capacity but excluding borrowing costs. Finished goods and work in process are accounted for under the weighted average method.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Rendering of services is accounted for in accordance with IFRS 15 and not within the scope of inventories.

(12) Investments accounted for under the equity method

The Group's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Group has significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture.

Under the equity method, the investment in the associate or an investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Group's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the Group's related interest in the associate or joint venture.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affect the Group's percentage of ownership interests in the associate or joint venture, the Group recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a prorata basis.

When the associate or joint venture issues new stock, and the Group's interest in an associate or a joint venture is reduced or increased as the Group fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Group disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 *Investments in Associates and Joint Ventures*. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 *Impairment of Assets*. In determining the value in use of the investment, the Group estimates:

- A. Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- B. The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*.

Upon loss of significant influence over the associate or joint venture, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(13) Property, plant and equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 "*Property, plant and equipment*". When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Items	Useful Lives
Buildings and facilities	20~50 years
Machinery and equipment	5~17 years
Tooling equipment	2~ 4 years
Transportation equipment	5~10 years
Furniture, fixtures and equipment	3~11 years
Miscellaneous equipment	3~15 years
Leasehold improvements	The shorter of lease terms or economic useful lives

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate, and are treated as changes in accounting estimates.

(14) Investment property

The Group's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, investment properties are measured using the cost model in accordance with the requirements of IAS 16 *Property, plant and equipment* for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	25 years
Right-of-use assets	1~50 years

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Group transfers properties to or from investment properties according to the actual use of the properties.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Group transfers to or from investment properties when there is a change in use for these assets. Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(15) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

- A. the right to obtain substantially all of the economic benefits from use of the identified asset; and
- B. the right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.

At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- A. fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B. variable lease payments that depend on an index or a rate, initially measured using the index or rate as of the commencement date;
- C. amounts expected to be payable by the lessee under residual value guarantees;
- D. the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- E. payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A. the amount of the initial measurement of the lease liability;
- B. any lease payments made at or before the commencement date, less any lease incentives received;
- C. any initial direct costs incurred by the lessee; and
- D. an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Group applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the Covid-19 pandemic, the Group elected not to assess whether it is a lease modification but accounted it as a variable lease payment and the practical expedient has been applied to such rent concessions.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(16) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Accounting policies of the Group's intangible assets is summarized as follows:

	<u>Software</u>	<u>Trademarks</u>	<u>Patents</u>	<u>Others</u>
Useful lives	1~10 years	1~10 years	1~25 years	40 years
Method of amortization	Amortized on a straight- line basis over the estimated useful life	Amortized on a straight- line basis over the estimated useful life	Amortized on a straight- line basis over the estimated useful life	Amortized on a straight- line basis over the estimated useful life
Sources	Outside	Outside	Outside	Outside

(17) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 *Impairment of Assets* may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(18) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probably that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

(19) Revenue recognition

The Group's revenue arising from contracts with customers are primarily related to sale of goods. The accounting policies are explained as follows:

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Sale of goods

The Group manufactures and sells machinery. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group are sewing machines and vacuum cleaners and spare parts and revenue is recognized based on the consideration stated in the contract.

The credit period of the Group's sale of goods is from 45 to 90 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract.

(20) Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(21) Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

- A. the date of the plan amendment or curtailment, and
- B. the date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted and disclosed for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

(22) Income Tax

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A. Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- B. In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- B. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and deferred tax liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized accordingly.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax. The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements require management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumption and estimate could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

A. Operating lease commitment – Group as the lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

A. Accounts receivables – estimation of impairment loss

The Group estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

B. Inventories

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

C. Fair value of financial instruments

Where the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using valuation techniques including the income approach (for example the discounted cash flows model) or market approach. Changes in assumptions about these factors could affect the reported fair value of the financial instruments. Please refer to Note 12 for more details.

D. Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and changes of the future salary etc.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

E. Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group company's domicile.

Deferred tax assets are recognized for all carry-forward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

6. CONTENTS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	As of		
	30 September 2021	31 December 2020	30 September 2020
Cash on hand	\$1,530	\$955	\$857
Checking and savings accounts	1,169,704	1,346,539	1,625,469

Total	<u>\$1,439,623</u>	<u>\$1,311,313</u>	<u>\$891,870</u>

b. The Group cost of inventories recognized in cost of sales amounts to \$1,373,193 and \$1,577,573 for the three-month periods ended 30 September 2021 and 2020, including the loss from market value decline, obsolete and slow-moving of inventories \$3,792 and the gain from inventory price recovery \$1,577. The Group cost of inventories recognized in cost of sales amounts to \$5,014,283 and \$3,650,478 for the nine-month periods ended 30 September 2021 and 2020, including the loss from market value decline, obsolete and slow-moving of inventories \$5,067 and \$1,166.

c. For the three-month periods ended 30 September 2020, the gains from inventory price recovery were recognized due to the fact that the inventory that has been established a valuation loss earlier has been scrapped and the sluggish inventory has been consumed.

d. No inventories were pledged.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

According to the Company Act, the capital reserve shall not be used except when offsetting the deficit of the company. When a company incurs no loss, it may distribute the capital reserves related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

C. Retained earnings and dividend policy

Pursuant to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order: payment of all taxes and dues; offset prior years' operation losses; set aside 10% of the remaining amount; set aside or reverse special reserve in accordance with relevant rules and regulations. However, when accumulated legal reserve reach to the capital stock, it is not required to set aside or reverse special reserve in accordance with relevant rules and regulations. The distribution of the remaining portion, if any, will be proposed by the board of directors to the shareholders' meeting for approval.

The Company operates in a traditional industry and is currently at its mature stage of business life cycle, with a relatively well established financial structure and fairly consistent earnings year-over-year. In addition to complying with the Company Act and the Company's Articles of Association, the dividend distribution will be determined based on the Company's capital planning and operating results. However, the principle of dividend stability and balance is adopted in principle. Before the annual shareholders' meeting, the board of directors formulates the method of surplus distribution based on the financial situation, and at least 50% of the surplus is distributed as shareholders' dividends. The cash dividend ratio is not less than 30% of the total dividend. However, the Company shall not distribute dividends if there is no surplus earning.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to make good the deficit of the Company. When the Company incurs no loss, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

When the Company distributing distributable earnings, it shall set aside to special reserve, an amount equal to “other net deductions from shareholders” equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders’ equity. For any subsequent reversal of other net deductions from shareholders’ equity, the amount reversed may be distributed from the special reserve.

The FSC on 31 March 2021 issued Order No. Jin-Guan-Zheng-Fa-1090150022, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders’ equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the Company can reverse the special reserve by the proportion of the special reserve first appropriated and distribute it.

The Company’s special reserve resulted from first-time adoption of IFRS on 1 January 2012 (adoption date) was \$0.

Details of the 2020 and 2019 earnings distribution and dividends per share as approved and resolved by the board of directors’ meeting and shareholders’ meeting on 20 July 2021 and 12 June 2020, respectively, are as follows:

	Appropriation of earnings (Note)		Dividend per share (NTD)	
	2020	2019	2020	2019
(Reversal) Special reserve	\$84,106	\$48,285		
Cash dividends-common stock	575,088	532,714	\$9.5	\$8.8

The Company estimated the amounts of the employees’ compensation and remuneration to directors and supervisors, please refer to Note 6 (13) for more details.

According to the Articles of Incorporation, 2% to 6% of profit of the current year is distributable as employees' compensation and no more than 4% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered. The Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the board of directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The Company recognized the employees' compensation and remuneration to directors and supervisors as employee benefits expense based on profit of current year. If the board of directors resolved to distribute employees' compensation in the form of stocks, the number of stocks distributed was calculated based on the closing price one day prior to the date of resolution. The difference between the estimates and the figures resolved at shareholders' meeting will be recognized in profit or loss of the subsequent year. The details of employees' compensation and remuneration to directors and supervisors for the three-month and nine-month periods ended 2021 and 2020 are as follows:

	For the three-month periods ended 30 September		For the nine-month periods ended 30 September	
	2021	2020	2021	2020
Employees' compensation	\$7,000	\$7,000	\$21,000	\$21,000
Directors' remuneration	1,040	1,180	3,400	3,480

A resolution was passed at a board of directors meeting held on 3 March 2021 to distribute \$28,000 and \$4,660 in cash as the employees' compensation and remuneration to directors and supervisors of 2020, respectively. No material differences existed between the estimated amount and the amount determined at the board meeting for the employees' compensation and remuneration to directors and supervisors for the year ended 31 December 2020.

No material differences existed between the estimated amount and the actual distribution of the employees' compensation and remuneration to directors and supervisors for the year ended 31 December 2019.

The assessment of income tax returns

As of 30 September 2021, the assessment of the income tax returns of the Company and its subsidiaries is as follows:

	<u>The assessment of income tax returns</u>
The Company	Assessed and approved up to 2019
Mitsumichi Industrial Co., Ltd.	Assessed and approved up to 2019
Taiwan Cheer Champ Co., Ltd	Assessed and approved up to 2019

As of 30 September 2021, the foreign subsidiaries of the Company have been subject to foreign taxation jurisdiction and have been declared in 2020.

(17) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit for the year attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

a. Basic earnings per share

	For the three-month periods ended 30 September		For the nine-month periods ended 30 September	
	2021	2020	2021	2020

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(2) Financial risk management objectives and policies

The Group's risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activities. The Group identifies measures and manages the aforementioned risks based on policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant financial activities, due approval process by the board of directors and audit committee must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

The market risk of the Group is the risk that the financial instruments will be subject to fluctuations in fair value or cash flows due to changes in market prices. Market risks mainly include exchange rate risk, interest rate risk and other price risks (such as equity instruments).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there are usually interdependencies between risk variables. However the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward exchange contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as of the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for USD, RMB and VND. The information of the sensitivity analysis is as follows:

- a. When NTD strengthens/weakens against USD by 1%, the profit for the nine-month periods ended 30 September 2021 and 2020 is decreased by \$21,469 and \$25,759, respectively; and no impact on the equity.
- b. When NTD strengthens/weakens against RMB by 1%, the profit for the nine-month periods ended 30 September 2021 and 2020 is increased/decreased by \$1,427 and \$593, respectively; and no impact on the equity.
- c. When NTD strengthens/weakens against VND by 1%, the profit for the nine-month periods ended 30 September 2021 and 2020 is decreased/increased by \$181 and \$467, respectively; and no impact on the equity.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to Group's bank borrowings with fixed interest rates and variable interest rates.

The interest rate sensitivity analysis is performed on the borrowings with variable interest rates as of the end of the reporting period. At the reporting date, a change of 10 basis points of interest rate in a reporting period will result in an increase/decrease of \$320 and \$381 for the nine-month periods ended 30 September 2021 and 2020, respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities and conversion rights of the Euro-convertible bonds issued are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through profit or loss and financial assets measured at fair value through other comprehensive income, while conversion rights of the Euro-

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

convertible bonds issued are classified as financial liabilities at fair value through profit or loss as it does not satisfy the definition of an equity component. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

Please refer to Note 12 (9) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for trade receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counterparties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria, etc. Certain counterparties' credit risk will also be managed by taking credit enhancement procedures, such as requesting for prepayment.

As of 30 September 2021, 31 December 2020 and 30 September 2020, amounts receivables from top ten customers represented 83.25%, 87.49% and 89.62% of the total trade receivables of the Group, respectively. The credit concentration risk of other accounts receivables is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating and with no significant default risk. Consequently, there is no significant credit risk for these counter parties.

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments and bank borrowings. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	<u>< 1 year</u>	<u>2 ~ 3 years</u>	<u>4 ~ 5 years</u>	<u>> 5 years</u>	<u>Total</u>
As of 30 September 2021

(7) Fair value of financial instruments

A. The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

- (A) The carrying amount of cash and cash equivalents, accounts receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
- (B) For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.
- (C) Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

- (D) Fair value of debt instruments without market quotations, bank loans, bonds payable and other non-current liabilities are determined based on the counterparty prices or valuation method. The valuation method uses DCF method as a basis, and the assumptions such as the interest rate and discount rate are primarily based on relevant information of similar instrument (such as yield curves published by the Taipei Exchange, average prices for Fixed Rate Commercial Paper published by Reuters and credit risk, etc.)
- (E) The fair value of derivatives which are not options and without market quotations, is determined based on the counterparty prices or discounted cash flow analysis using interest rate yield curve for the contract period. Fair value of option-based derivative financial instruments is obtained using on the counterparty prices or appropriate option pricing model (for example, Black-Scholes model) or other valuation method (for example, Monte Carlo Simulation).

B. Fair value of financial instruments measured at amortized cost

The carrying amount of the Group's financial assets and liabilities measured at amortized cost approximate their fair value.

C. Fair value measurement hierarchy for financial instruments

Please refer to Note 12(9) for fair value measurement hierarchy for financial instruments of the Group.

(8) Derivative financial instruments

The Group's derivative financial instruments include a foreign exchange swap and a cross currency swap. The related information for derivative financial instruments not qualified for hedge accounting and not yet settled as of 30 September 2021, 31 December 2020 and 30 September 2020 is as follows:

Foreign Exchange Swap and Cross Currency Swap

The Group entered into a foreign exchange swap and a cross currency swap to manage its exposure to financial risk, but these contracts are not designated as hedging instruments.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Contract	Contract amount	Maturity
As of 30 September 2021		
Foreign Exchange Swap	Sell USD 8,500 thousand	2021.04.16-2022.02.11
As of 31 December 2020		
Foreign Exchange Swap	Sell USD 8,000 thousand	2020.07.30-2021.05.04
Forward exchange agreement	Sell EUR 2,700 thousand	2020.08.06-2021.03.31
As of 30 September 2020		
Foreign Exchange Swap	Sell USD 6,000 thousand	2020.07.16-2021.02.05
Forward exchange agreement	Sell EUR 4,400 thousand	2020.10.13-2021.03.31

The Group entered into derivative transactions to manage exposures related to exchange rate fluctuations. Because the Group held sufficient working capital, there were not significant impacts on cash flow when the derivative transactions were completed.

(9) Fair value measurement hierarchy

(a) Fair value measurement hierarchy

All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(b) Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

As of 30 September 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through profit or loss				
Fund	\$110,164	\$-	\$-	\$110,164
Financial liabilities:				
Financial liabilities at fair value through profit or loss				
Foreign exchange swap	-	1,364	-	1,364

As of 31 December 2020

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through profit or loss				
Fund	\$114,282	\$-	\$-	\$114,282
Financial liabilities:				
Financial liabilities at fair value through profit or loss				
Foreign exchange swap	-	3,409	-	3,409
Forward exchange agreement	-	672	-	672

As of 30 September 2020

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Financial assets:				
Financial assets at fair value through profit or loss				
Foreign exchange swap	\$-	\$1,739	\$-	\$1,739
Financial liabilities:				
Financial liabilities at fair value through profit or loss				
Foreign exchange swap	-	1,911	-	1,911

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Continued)
(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Transfers between Level 1 and Level 2 during the period

During the nine-month periods ended 30 September 2021 and 2020, there were no transfers between Level 1 and Level 2 fair value measurements.

Reconciliation for fair value measurements in Level 3 of the fair value hierarchy for movements during the period is as follows:

	Assets	
	At fair value through other comprehensive income	
	Stocks	
	For the nine-month periods ended 30 September	
	2021	2020
Beginning balances	\$-	\$14,959
Disposal	-	(14,959)
Ending balances	\$-	\$-

Information on significant unobservable inputs to valuation

Description of significant unobservable inputs to valuation of recurring fair value measurements categorized within Level 3 of the fair value hierarchy is as follows:

As of 30 September 2021

None.

As of 31 December 2020

None.

As of 30 September 2020

None.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

The Group's Financial Department is responsible for validating the fair value measurements and ensuring that the results of the valuation are in line with market conditions, based on independent and reliable inputs which are consistent with other information, and represent exercisable prices. The Department analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies at each reporting date.

(c) Fair value measurement hierarchy of the Company's assets and liabilities not measured at fair value but for which the fair value is disclosed.

Due to the large number of functional currencies used in the Group, it's impossible to disclose foreign exchange gains and losses on the basis of each monetary item which has significant impact. The Group recognized \$36,998 and \$38,656 for foreign exchange losses for the nine-month periods ended 30 September 2021 and 2020, respectively.

(11) Capital management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize the shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

ZENG HSING INDUSTRIAL CO., LTD. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

(Expressed in Thousands of New Taiwan Dollars unless Otherwise Specified)

(12) Impact of Covid-19

Some of the Group's subsidiaries in Vietnam have temporarily halted production from 19 July 2021 to 1 August 2021, due to the impact of Covid-19 for the lack of materials and the local government's policy. Work will be gradually resumed in accordance with the latest epidemic prevention regulations of the local government. Although Covid-19 has adversely affected the Group's production capacity and shipments for the nine-month periods ended 30 September 2021, as the epidemic in various regions in Vietnam slows down and successively unblocked, the impact of the Covid-19 on the Group has gradually diminished, and the Group will continue to follow up in response to the development of the epidemic, timely adjustment of operating strategies was made.

(13) To facilitate analysis and comparison, some subjects in the financial statements of 31 December 2020 and 30 September 2020 have been reclassified appropriately.

(4) Information of major shareholders

The company has no shareholders with a shareholding ratio of more than 5% on 30 September 2021.

14. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organized into business units based on operating strategies and has three reportable segments as follows:

Taiwan segment produces computerized and electronic sewing machines.

China segment produces computerized, electronic and mechanical sewing machines.

Vietnam segment produces mechanical sewing machines.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured based on accounting policies consistent with those in the consolidated financial statements. However, income taxes are managed on a group basis and are not allocated to operating segments.

Transfer prices between operating segment are on an arm's length basis in a manner similar to transactions with third parties.

(1) The reportable segments' profit and loss, information are listed as follows:
